Yale Leadership, Community Impact & Global Engagement

Evaluator Guideline 2: Public Purpose, Community Leadership & Cultural Contribution

Section 1: Character & Service to Society

In line with Yale’s mission to educate leaders who serve all sectors of society, the Impact Reviewer assesses:

1. Demonstrated Leadership: Evidence of initiative, sustained commitment, resilience, and collaborative problem-solving within campus organizations, public service initiatives, or research collectives.

2. Community Impact: Clear articulation of how the student's work benefits their broader community, field of inquiry, or society.

3. Dissemination & Reach: Feasibility of translating research, creative arts, or public policy proposals into tangible outcomes, peer-reviewed publications, open-access tools, or community workshops.

Section 2: Narrative Coherence Across Materials

• Evaluators examine whether the student's personal statement, video motivation letter, and extracurricular record reinforce a coherent life trajectory.

• Authenticity check: Statements must reflect the applicant's genuine voice and lived experiences rather than formulaic templates.

• Any conflict between claims in the essay and the factual CV/transcript triggers a review flag.
